About SKC GDC Poonch

Government Degree College, Poonch was established on 11 th November 1955 being oldest college in Pirpanjal region. Initially it started functioning as an Intermediate College in the old "ReshamGhar" building in 'Mohalla Dungas'. Prof. R.L. Basur, an eminent educationist of Jammu and Kashmir was its first Principal. In 1961, it was elevated to the status of a Degree College and Prof. P.N. Pushp, another great educationist and scholar, headed this institution during its developmental phase. In early sixties, the College was shifted to its present location. The college is presently affiliated to the University of Jammu and is recognized by University Grants Commission. The College celebrated its golden Jubilees in the year 2005. The college offers undergraduate courses in Arts, sciences, vocational course in sericulture and B.C.A as a professional course. We have also started starting career oriented courses and certificate courses in some subjects (Functional English and Sericulture). The infrastructure of the college has been constantly upgraded cater to the growing needs of the students with newly introduced subjects we are sure that the products of this college shall be fully equipped to meet the challenges in the new millennium. The historic college has recently been re-named after the name of legendary writer, Shri Krishan Chander, as Shri Krishan Chander Govt Degree College Poonch and at present is Accreditated with "A" Grade by NAAC. ABOUT SHEIKH'S COMPUTER ASSOCIATION TECHNOLOGY POONCH, J&K, INDIA

Sheikh's Computer Association Technology (SCAT) Poonch J&K, India, a leading Institute registered under Research Innovation Center of Education for Excellence (RICEE) & J&K Government, a dynamic institution dedicated to providing comprehensive computer education and technology services since decade. We take pride in our commitment to empowering the community with the knowledge, skills, and resources necessary to thrive in the digital age. SCAT Poonch, J&K, India, offers a wide range of computer courses, technology services, and community initiatives, all aimed at bridging the digital divide and fostering technological advancement in the region.

About the Conference

Artificial intelligence is the simulation of human intelligence processes by machines, especially computer systems. Specific applications of AI include expert systems, natural language processing, speech recognition and machine vision. Studies show that the AI market will grow to a $190 billion industry by 2025, according to research firm Markets and Markets. AI has become almost omnipresent in our lives. In fact, some people are even scared of a complete AI win over humans! While that is certainly an exaggeration, we have nonetheless weaved AI into our daily lives and activities. Even a simple search on Google uses AI to provide us with the most accurate results.

Thus to realize and analyse the role of Artificial intelligence in human welfare and sustainable development, an effort has been made by SKC GDC Poonch along with two voluntary organizations, Attitude change International and Sheikh's Computer Association Technology, by inviting galaxy of experts, scientists, scholars and technocrats from various parts of world on this virtual platform named – Two day International Conference "Artificial Intelligence and Sustainable Development" opportunities and challenges. With the Spirit of Oneness, rooted deep in Indian tradition *Vasudhaiva kutumbakam which is also theme of* India's G20 Presidency and under the aegis *Azadi ka Amrit Mahutsav* this conference hopefully will open new vistas of nexus between human and artificial intelligence for greater good of humanity.

Target Audience and delegates:
